

GO DUGONG feat. MAI MAI MAI “RANDAGIO”

“Randagio is the lead single from the new Go Dugong album “Meridies”, out on the 12th of Nov for Hyperjazz Records and La Tempesta Dischi.

Directed and produced by the artist **Giacomo Laser**, this videoclip is an allegory of the human condition. A blind and clumsy being moves through the wastelands of the Taranto countryside. Like a stray accompanied by his own shadows, he goes looking for something he cannot see. He is the personification of callous disregard and the terrible choice of the human being to not caring about the consequences. A metaphorical journey that is a sum of errors to which men ends up hopelessly getting used to.

The contrast between natural beauty and the mask underlines the violence of the condition but also the really last possibility of redemption.

The "Randagio" by Laser wants to be a warning to open eyes and heart to beauty, without forgetting our shadows that accompany us throughout our life.

“With Mai Mai Mai, we share the research scope, so it was nice and very stimulating to collaborate with him on this track. Although developed remotely due to a pandemic, “Randagio” is the result of what unites Toni and me as artists and as music lovers. A dark psychedelic and noise tammurriata inspired by some of the abandoned and unfinished places in Southern Italy.” - Go Dugong.
