

### **MELLOW MOOD ft. MEMORIA – Mountains & Waters**

10 months since the release of their latest album *Mañana*, the Italian reggae band Mellow Mood announce the release of a new single on July 5<sup>th</sup>, 2023.

*Mountains & Waters* is a solid roots tune written by Mellow Mood in collaboration with the Peruvian-German reggae band Memoria and produced by renowned Italian producer Paolo Baldini DubFiles. The song is a call upon taking into consideration the negative effects of our approach towards climate change and more specifically a warning about the lip-servicing, green-washing propaganda carried out by the same capitalist players who worsen climate change and endanger our Planet in the first place.

Two couples of brothers is a big combination, and the long-standing Italian powerhouse Mellow Mood are pleased to be joined by one of Germany's rising reggae acts for this track. The song will be officially presented live on July 8th at Sunrise Reggae Und Ska Festival in Burtenbach (DE).
